MEMORANDUM

To: **ADMINISTRATOR EDITA S. BUENO**

From: **ACTING SECRETARY JOSE C. IBAZETA**

Date: **12 APRIL 2010**

Subject: ***Directing All Electric Cooperatives to Implement Load Reduction Program during the 10 May 2010 Automated National Election***

Pursuant to the EPIRA, the DOE is mandated to ensure the reliability and security of electric power supply in the country. This becomes more relevant in the upcoming first automated national elections on 10 May 2010, which will require reliable and stable electric supply throughout the voting process.

In view of the recent challenges in stabilizing the power supply situation in the country, which is significantly affected by the El Nino phenomenon, and considering the need to ensure the continuous supply of electric power during the 10 May 2010 Automated National Elections, NEA is hereby instructed to issue a directive to all electric cooperatives (ECs) in Luzon, Visayas, and Mindanao to implement the appropriate Load Reduction (LR) Program for the period 9-11 May 2010 within their respective regions.

For this purpose, please submit a detailed LR program, including strategies and timeline, for implementation on or before **16 April 2010** through email to Ms. Ruth C. Perez of the DOE-Electric Power Industry Management Bureau (EPIMB) at rcperez_doe@yahoo.com.

Emerald Avenue, Ortigas Center

Pasig City

Subject: Directing All Private Distribution Utilities to Implement Load Reduction Program during the 10 May 2010 Automated National Election

Dear President Ocampo:

Pursuant to the EPIRA, the DOE is mandated to ensure the reliability and security of electric power supply in the country. This becomes more relevant in the upcoming first automated national elections on 10 May 2010, which will require reliable and stable electric supply throughout the voting process.

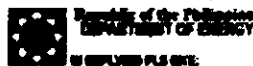

In view of the recent challenges in stabilizing the power supply situation in the country, which is significantly affected by the El Nino phenomenon and considering the need to ensure the continuous supply of electric power during the 10 May 2010 Automated National Elections, may we request PEPOA to issue a directive to all its members (private distribution utilities) in Luzon, Visayas, and Mindanao to implement the appropriate Load Reduction (LR) Program for the period 9-11 May 2010 within their respective regions.

For this purpose, please submit a detailed LR program, including strategies and timeline, for implementation on or before **16 April 2010** through email to Ms. Ruth C. Perez of the DOE-Electric Power Industry Management Bureau (EPIMB) at rcperez_doe@yahoo.com.

Thank you.

Very truly yours,

JOSE C. IBAZETA

Subject: Directing All Private Distribution Utilities to Implement Load Reduction Program during the 10 May 2010 Automated National Election

Dear President De Jesus:

Pursuant to the EPIRA, the DOE is mandated to ensure the reliability and security of electric power supply in the country. This becomes more relevant in the upcoming first automated national elections on 10 May 2010, which will require reliable and stable electric supply throughout the voting process.

In view of the recent challenges in stabilizing the power supply situation in the country, which is significantly affected by the El Nino phenomenon and considering the need to ensure the continuous supply of electric power during the 10 May 2010 Automated National Elections, may we request your office to implement the appropriate Load Reduction (LR) Program for the period 9-11 May 2010, within MERALCO's franchise area.

For this purpose, please submit a detailed LR program, including strategies and timeline, for implementation on or before **16 April 2010** through email to Ms. Ruth C. Perez of the DOE-Electric Power Industry Management Bureau (EPIMB) at rcperez_doe@yahoo.com.

Thank you.
