III. SUMMARY OF THE PROPOSED RULES CHANGE

The proposed amendments to the Enforcement and Compliance (EC) Manual aim to enhance procedural clarity, align rule references with current regulatory frameworks, and integrate enforcement practices that reflect operational realities. Key revisions include:

- *Jurisdictional Clarification.* Investigations may now cover entities that were WESM Members during the two-year prescriptive period, regardless of subsequent changes in membership status or facility ownership.
- *Streamlined Investigation Timelines.* The prescribed period for completing formal investigations is reduced from 24 months to 150 business days, reckoned from the issuance of the Notice of Investigation, not from receipt of the Request for Investigation.
- *Refined Process Flow.* Clear distinction is established between the initiation of investigation (triggering events) and the formal commencement (issuance of notice), with a five-day verification period introduced prior to formal proceedings.
- *Clarified Filing Authority and Standardized Protocols.* The Manual now specifies eligible filers—WESM Members, Governance Committees, Market and System Operators—and limits filings to Market Rule or Manual violations. Terminology was streamlined, and notification procedures for decisions and enforcement outcomes were formalized.
- *Enhanced Provisions on Remedial Measures.* Provisions were added to ensure effective implementation of remedial actions, especially when other entities must be involved. Confidentiality safeguards were introduced to protect case integrity.
- *Integration of Reconsideration and Appeal Procedures.* Reconsideration and appeal mechanisms previously housed in the Penalty Manual are now incorporated into the EC Manual, with revised timelines and procedural safeguards to reflect actual enforcement practices.

These changes reinforce the Manual's core objective: to ensure consistent, transparent, and enforceable penalties across all WESM participants.

IV. BACKGROUND

The EC Manual serves as the procedural foundation for enforcing the WESM Rules. It outlines the mechanisms for compliance monitoring, breach investigation, and penalty imposition, ensuring that enforcement actions are carried out with fairness, transparency, and accountability.

In September 2023, the Philippine Electricity Market Corporation (PEMC) submitted a rules change proposal that included amendments to both the EC Manual and the Penalty Manual. While the DOE approved the EC Manual, it denied the Penalty Manual, citing concerns over:

- The proposed transfer of the penalty collection function from the Market Operator to the WESM Governance Arm.
- The proposed utilization of collected penalties to address urgent, unforeseen, and necessary operational and governance needs of the WESM.

Despite the disapproval, PEMC maintains that these provisions were grounded in sound rationale and aimed at improving enforcement efficiency. Following consultations with the DOE, PEMC was advised to refile both Manuals.

The current refiling is not a mere reiteration of previously disapproved provisions. It is a refined and contextually updated proposal that reflects current enforcement realities, aligns with DOE directives, and addresses procedural gaps that have emerged over time.

V. THE PROPOSED RULES CHANGE

The following table summarizes the key changes introduced in the revised Enforcement and Compliance Manual.

Proposed Change	Details	Affected Sections
Jurisdictional Clarification	Investigations may now include entities that were WESM Members during the two-year prescriptive period, even if they have since exited or transferred facility ownership.	Section 7.1.8
Streamlined Investigation Timelines	The investigation deadline is corrected from 24 months to 150 business days, starting from when the Notice of Investigation is issued.	Section 7.7.1
Refined Process Flow	A clearer distinction is made between what triggers an investigation and when it formally begins. A five-day verification period precedes the issuance of the notice.	Sections 7.2.12 and 7.3.1
Filing Authority, Terminology and Notifications	Only WESM Members, Governance Committees, and the Market/System Operators can file. Terms like “Report of Probable Breach” are now interchangeable, and notification steps are more clearly laid out.	Sections 7.2.4, 7.9.3, 7.12.2–7.12.3
Enhanced Provisions Relating to Remedial Measures	Remedial actions may now involve other entities when necessary. Confidentiality provisions were added to safeguard sensitive case information.	Sections 7.14.1–7.14.3
Reconsideration and Appeal Procedures	These procedures have been moved from the Penalty Manual to the EC Manual, with updated timelines and clearer roles for the ECO, Compliance Committee, and PEM Board.	Sections 9.1–9.4

Proposed Change	Details	Affected Sections
Minor Revisions for Consistency	Several sections were tweaked to fix typos, update outdated references, and align terms like “PEMC” with “WESM Governance Arm.” These help keep the Manual clean and consistent.	Sections 3.2.2, 3.4.1, 4.4.1, 5.2.6, Glossary

Collectively, these amendments reinforce the Manual’s role as a practical and responsive guide for enforcement, while ensuring consistency with the evolving structure and language of the WESM governance framework.

VI. BACKGROUND AND DESCRIPTION OF THE PROPONENT

Philippine Electricity Market Corporation, acting as the Governance Arm of the WESM with its officers as follows:

Elvin Hayes E. Nidea – President
 Andrea J. Mendiola – Legal Department Head
 Bienvenido C. Mendoza – Market Assessment Department Head
 Ma. Hazel M. Gubaton-Lopez – Enforcement and Compliance Department Head
 Elaine D. Gonzales – Internal Audit Department Head
 Patrick S. Fernandez – Information System and Technology Department Head

VII. CONCLUSIONS AND RECOMMENDATIONS

The proposed amendments to the Enforcement and Compliance Manual represent a necessary evolution of the WESM enforcement framework. They are not merely a restatement of previously disapproved provisions, but a refined proposal that:

- Strengthens procedural integrity and operational clarity.
- Ensures that enforcement mechanisms remain fair, transparent, and responsive.

PEMC recommends the approval of the proposed rules change and reiterates its commitment to collaborative governance, regulatory integrity, and continuous improvement in the WESM. These amendments are essential to maintaining a robust, accountable, and future-ready enforcement system.

Aligned terminology for consistency.
Section 7 – Procedures for Investigation and Review 7.10 – Remand of Cases	7.10.2	Within five (5) working days from receipt of the notice of the remand, the <i>Enforcement and Compliance Office</i> shall notify the party investigated of the remand and the reasons therefor. If the investigation was initiated upon a <i>request for investigation</i> or a <i>notice of probable breach</i> , the parties that submitted the same shall likewise be notified of the remand.	Within five (5) working days from receipt of the notice of the remand, the <i>Enforcement and Compliance Office</i> shall notify the party investigated of the remand and the reasons therefor. If the investigation was initiated upon a <i>request for investigation</i> or a <i>notice of probable breach</i>, the parties that submitted the same shall likewise be notified of the remand.	Removed the requirement for ECO to notify the party under investigation of the case's remand to ECO. Note: At this stage of the proceedings, the party has neither received the Investigation Report yet nor been informed of any action taken by the PEM Board. As such, notifying the party of the remand would be premature. Moreover, the remand process remains internal – limited to the PEM Board, the Compliance Committee (CC), and ECO, given that no final decision has been reached yet.
