MEETING MINUTES

Subject/Purpose : 218th RCC (Regular) Meeting No. 2023-11
 Date & Time : 21 July 2023, 9:00 AM to 3:00 PM
 Venue : Online via Microsoft Teams
 Page : 3 of 58

Agenda	Discussion/Agreements
I. Call to Order	The meeting was called to order at 9:01 AM.
II. Determination of Quorum	The quorum was determined with thirteen (13) principal and three (3) alternate members present.
III. Adoption of Agenda	<p>The agenda was adopted with the following modifications:</p> <ul style="list-style-type: none"> • Revision of the action required from “for deliberation” to “for update” on the proposed amendments regarding Market Transaction Procedures, and Implementation of Electric Retail Aggregation Program; • Inclusion of the deliberation on the Proposed Amendments to the WESM Rules and WESM Manual on Dispatch Protocol regarding Market Intervention (MI) and Market Suspension (MS); and • Inclusion of the request for approval on the draft RCC Semestral Report (January to June 2023) with updates on 2023 RCC workplan.
<p>IV. Draft Minutes of Previous Meetings:</p> <ul style="list-style-type: none"> • 217th (Regular) Meeting, 23 June 2023 	<ul style="list-style-type: none"> • Ms. Divine Gayle C. Cruz (RCC Secretariat) presented the draft minutes of the previous meeting. She informed that there were follow-up questions from Mr. Jordan Rel C. Orillaza (Independent). • Ms. Cruz guaranteed the RCC to provide responses to the clarifications of Mr. Orillaza prior to circulation of the minutes for final approval and e-signatures. <p><u>Agreements:</u></p> <ol style="list-style-type: none"> a) The RCC provisionally approved the minutes of the 217th (Regular) Meeting pending revisions. b) The Secretariat to send the final minutes of meeting for e-signatures of the RCC.

Proceedings:

- Ms. Cruz (Secretariat) presented to the RCC the draft resolution regarding the proposal. She provided a recap that the proposal was discussed by Dispute Resolution Administrator (DRA) Teodoro Kalaw IV during the 217th RCC (Regular) Meeting last 23 June 2023.

Agreements:

- The RCC approved the draft Resolution for submission to PEM Board.
- The Secretariat to circulate the approved Resolution for the RCC's e-signatures.

Agenda	Discussion/Agreements
5.2. Continuation of Deliberation on the Proposed General Amendments to the Retail Rules and Retail Manual on Market Transaction Procedures in view of the ERC Resolution No. 01, Series of 2023	<p><u>Presenter:</u> Dianne L. De Guzman (RCC Secretariat)</p> <p><u>Action Requested:</u> For Information</p> <p><u>Material:</u> Annex A</p>
5.3. Continuation of Deliberation on the Proposed General Amendments to the WESM Rules, Retail Rules and Market Manuals on the Implementation of Electric Retail Aggregation Program <ul style="list-style-type: none"> <i>Pending Items and Summary of Agreements</i> 	

41
42
43
44
45

Proceedings:

- Ms. De Guzman (Secretariat) presented updates on agenda items 5.2 and 5.3 as follows:

MEETING MINUTES

Subject/Purpose : 218th RCC (Regular) Meeting No. 2023-11
 Date & Time : 21 July 2023, 9:00 AM to 3:00 PM
 Venue : Online via Microsoft Teams
 Page : 5 of 58

- 46 a) During the Philippine Electricity Market Corporation – Energy Regulatory Commission (PEMC-
 47 ERC) Coordination Meeting on 11 July 2023, the RCC Secretariat presented the
 48 developments on the said items and requested guidance from the ERC on whether RCC will:
 49 i. continue the deliberations on the proposals; or
 50 ii. defer the discussions and wait for the unifying policy on retail.
 51
- 52 b) As a response, Director Sharon Montañer (ERC) suggested for the RCC to defer its
 53 deliberations on the subject proposals citing the following reasons:
 54 i. Ongoing review of the Retail Competition and Open Access – Technical Working
 55 Group (RCOA – TWG);
 56 ii. Additional opt-out policy on retail aggregation; and
 57 iii. Pending implementation of the retail aggregation pilot program by the Manila Electric
 58 Company, Inc. (MERALCO) and the University of the Philippines – Diliman due to
 59 concerns regarding their supply contract.
 60
- 61 • The RCC Secretariat suggested for PEMC to formally write a letter to ERC submitting the RCC’s
 62 discussions on the proposals as input to the ongoing undertakings of the RCOA – TWG in unifying
 63 policies related to retail. The comments received including the RCC discussions, which are
 64 already embedded in the minutes of meetings, will be part of the said submission to ERC. In line
 65 with this, Ms. De Guzman clarified that the Secretariat will first coordinate with the proponent of
 66 the proposals to craft a more comprehensive context prior to submission of RCC discussions to
 67 the ERC.
 68
 - 69 • Chairperson Jesusito G. Morillos (Independent) asked if the draft letter will be routed through
 70 chat or be tabled in the next meeting for RCC’s review. Ms. De Guzman replied that usual email
 71 routing will be made.
 72

Agreements:

- 73
- 74
- 75 a) The RCC noted the updates provided by the Secretariat and agreed to formally submit its
 76 discussions to the ERC for consideration in unifying policy on retail.
 77 b) The Secretariat to coordinate with IEMOP, the proponent of the proposals, to craft a better
 78 context of the proposals prior drafting a transmittal letter to the ERC.
 79

Agenda	Discussion/Agreements
5.4. Continuation of Deliberation on the Proposed General Amendments to the WESM Rules and Various WESM Manuals on the Interruptible Load Program (ILP) Implementation	<p><u>Presenter:</u> Dianne L. De Guzman (RCC Secretariat)</p> <p><u>Action Requested:</u> For Deliberation</p> <p><u>Material:</u> Annex B</p>

MEETING MINUTES

Subject/Purpose : 218th RCC (Regular) Meeting No. 2023-11
 Date & Time : 21 July 2023, 9:00 AM to 3:00 PM
 Venue : Online via Microsoft Teams
 Page : 6 of 58

Proceedings:

- 81 • Ms. De Guzman (Secretariat) provided a background on the proposal wherein the same emanated
 82 from the DOE's letter to IEMOP dated 07 February 2023 requesting IEMOP to:
 83
 84 a) Conduct a review of the accuracy of Day-ahead Projection (DAP) being submitted by
 85 generation companies in the WESM; and
 86 b) Propose a penalty provision as part of the market rules for those non-compliant with the
 87 submitted DAP.
 88
 89
 90
- 91 • As a matter arising from the previous RCC discussions, the Secretariat requested Ms. Jhannelyn
 92 D. Marasigan (DOE Observer) to enlighten the meeting attendees about the real intention of the
 93 said DOE letter. Ms. Marasigan stated that it was based on the MERALCO recommendations
 94 during an ILP forum for the SO to declare red alert earlier (i.e., a day ahead) for MERALCO to
 95 have ample time to mobilize the ILP Providers. The SO then informed the DOE that there is a
 96 need to compel generators to submit the most accurate DAPs. With the matter under RCC
 97 deliberation for quite some time, Ms. Marasigan relayed that the DOE would respect the RCC's
 98 decision and recommendation to the PEM Board.
 99
- 100 • Ms. Lilibeth Grace L. Vetus-Magtalas (IEMOP) also provided updates on the action items related
 101 to the proposal as follows:
 102
 103 a) There was a total of 865.1758 MWh bilateral contract quantities (BCQ) re-declaration from
 104 1301H to 1930H on 08 May 2023, which was caused by ILP.
 105 b) There was a Market Intervention (MI) during the affected intervals from 1345H to 1555H on
 106 08 May 2023 due to generation deficiency resulting to implementation of manual load drop
 107 (MLD).
 108
- 109 • The RCC continued its discussions on the subject proposal. Highlights of the deliberations were
 110 as follows:
 111
 112 WESM Manual on Dispatch Protocol 18.0
 113
 114 a) On Section 4.3.2, the RCC adopted IEMOP's proposal on the addition of a requirement
 115 "consistent with the provisions of Clauses 6.1.7 and 6.13 of this Manual" in submitting the most
 116 recent self-scheduled nominations, bids and offers for all relevant hours of the Week Ahead
 117 Projection (WAP) run by the Trading Participants (TP) before 0845H. Said clauses refer to the
 118 revisions of self-scheduled nominations, bids, and offers based on reasonable estimates.
 119
 120 b) On Section 4.4.2, the RCC adopted IEMOP's proposal on the addition of a requirement
 121 "consistent with the provisions of Clauses 6.1.7 and 6.13 of this Manual" in submitting the most
 122 recent self-scheduled nominations, bids and offers for all relevant hours of the Day Ahead
 123 Projection (DAP) run by the TPs before STPH¹-10 minutes.

¹ Start Time of the first Projected Hour (1)

MEETING MINUTES

Subject/Purpose : 218th RCC (Regular) Meeting No. 2023-11
Date & Time : 21 July 2023, 9:00 AM to 3:00 PM
Venue : Online via Microsoft Teams
Page : 7 of 58

- 124
125 c) On Section 9.3.4, which is similar to the proposed amendments on Clause 3.5.8 of the WESM
126 Rules, Mr. Darryl Lon A. Ortiz (Transmission) requested clarification from IEMOP on how they
127 forecast the demand, i.e., if based on day-ahead or nearest projection. According to Mr. Ortiz,
128 the proposal seems like the information will be given a day before by the Network Service
129 Providers (NSP), but the said information will be used by the MO during real-time scheduling,
130 hence, there could be inaccuracies. Lastly, he reiterated that ILP is a voluntary program which
131 depends on the condition of the ILP participants' operations.
132

133 On the nature of ILP implementation, Chairperson Morillos asked insights from DOE
134 representatives if the intent of its letter is for the ILP participants to become compulsory to
135 which Ms. Marasigan denied.
136

137 Meanwhile, to answer Mr. Ortiz's query on forecasting the demand, Ms. Vetus-Magtalas raised
138 that IEMOP is proposing for the NSPs to inform the MO of the total MW demand per hour that
139 was already committed per ILP implementation.
140

141 Mr. Jed Angelo G. Tetangco (MERALCO) shared that the committed MW can only be obtained
142 if there is a red alert notice provided. Thus, the participants could only decide to join or not to
143 join the ILP once they already know that there is an impending generation deficiency.
144 Moreover, since it is voluntary, there are also times when the customer confirms to join but
145 cancels due to unexpected problems.
146

147 Ms. Rachel Angela P. Anosan (Independent) recapitulated that on the obligation of the
148 generation side, the proposed amendments are only reiterations of the existing obligations.
149 However, on the provision of day-ahead information on the customer side, she expressed her
150 reservations as it might result to inconsistencies. For the customer's point of view, ILP can
151 only be limited to post-dispatch processes, e.g. settlement of BCQ re-declarations.
152 Nonetheless, IEMOP and DOE may wish to proceed with the submission of ILP information
153 day ahead, but timelines should be reviewed to determine its feasibility.
154

155 Mr. Ortiz mentioned that in a meeting attended by NGCP and DOE, the former raised that
156 some Distribution Utilities (DU) request them to issue red alert notices on day-ahead, but as
157 they observed, the DAPs being submitted by the generators are inaccurate. Some plants on
158 shutdown may return in between intervals of the day-ahead and the real-time. So, the supply
159 scenario may be revised prior to real-time, and there is no need for the red alert declaration.
160 Therefore, he agreed that the said letter is not directing for the ILP to be compulsory. Likewise,
161 Ms. Marasigan confirmed that the submission of the most accurate DAP is on the generation
162 side.
163

164 Mr. Tetangco refreshed the RCC about its presentation in previous RCC meeting that the
165 accuracy of actual de-loaded versus the committed de-loaded varies from 17% to 63%. If
166 IEMOP's objective is to ensure accuracy of forecasts, it cannot be assured since the actual
167 de-loaded kWh is based on estimates from the load profile during the red alert day and the
168 agreed daily load profile of the customer. MERALCO does not have kWh meters on the
169 generator sets of the customers.
170

171 On whether the requirement for the generators to submit DAP is binding in WESM,
172 Chairperson Morillos asked a clarification from Mr. Ortiz wherein he confirmed that there is

MEETING MINUTES

Subject/Purpose : 218th RCC (Regular) Meeting No. 2023-11
Date & Time : 21 July 2023, 9:00 AM to 3:00 PM
Venue : Online via Microsoft Teams
Page : 8 of 58

173 already a provision in the WESM Rules enjoining the generators to submit DAP, but it is not
174 binding in terms of scheduling and dispatch.

175
176 Moreover, Mr. Orillaza expressed his objections on approving the proposal on ILP based on
177 the following points:

- 178
179 i. It is challenging to craft and implement rules that detail the requirement and penalty
180 when the program is only voluntary. For instance, penalizing the ILP participants when
181 they cannot deliver their committed MW may discourage the said participants in joining
182 the program; and
183 ii. We recognize IEMOP's role to provide accurate forecast for optimal dispatch however,
184 it is difficult to do forecast while a significant portion of the demand (i.e., from ILP) is
185 not committed.

186
187 To elucidate, Mr. Edward I. Olmedo (IEMOP) explained that the MO does not consider ILP as
188 a component of its forecast. For the DAP that will be used by SO in its declaration of red alert,
189 only two (2) data are needed by the MO, i.e., 1) the available generation that was declared by
190 the generators, and 2) the projected load that the MO expects during normal condition, i.e., no
191 load dropping. On the other hand, in IEMOP's proposal, it concerns real-time, not day-ahead.
192 For the 15-minute horizon every 5 minutes, the MO is not aware if the trend in demand is
193 already part of the ILP. So, MO's reaction is delayed, and it is not optimizing the available
194 capacity that should be dispatched in real-time. In that scenario, Ancillary Services (AS) can
195 be beefed up so that the variability during that time can be fulfilled by the AS.

196
197 On Mr. Olmedo's issue on real-time optimization, Mr. Tetangco suggested for MO to use the
198 red alert deficiency being provided by the SO. For MERALCO, it is more ideal to only be
199 provided with the available generation for it to adjust the load that it will drop. Mr. Tetangco
200 also inquired Mr. Olmedo if there is still substantial MW capacity to be optimized during red
201 alerts to which the latter confirmed.

202
203 To conclude, the RCC decided to delete the new proposed provisions for both Clause 3.5.8 of
204 the WESM Rules and Section 9.3.4 of the WESM Manual on Dispatch Protocol, to wit:

205
206 "Network Service Providers shall inform the Market Operator of the total MW demand
207 per hour that is committed for the implementation of the Interruptible Load Program"
208 which will enable the MO to consider ILP de-loading capacity in forecasted demand
209 during real-time scheduling.

210
211 WESM Manual on Load Forecasting Methodology 4.0

- 212
213 a) On Section 7.3, the RCC decided to delete the new proposed provision consistent with its
214 decision on Section 9.3.4 of the WESM Manual on Dispatch Protocol and Clause 3.5.8 of the
215 WESM Rules. To wit:

216
217 "7.3 INFORMATION ON INTERRUPTIBLE LOAD PROGRAM IMPLEMENTATION

218

MEETING MINUTES

Subject/Purpose : 218th RCC (Regular) Meeting No. 2023-11
 Date & Time : 21 July 2023, 9:00 AM to 3:00 PM
 Venue : Online via Microsoft Teams
 Page : 9 of 58

219 7.3.1 By 2000H, Network Service Providers shall submit the Market Operator of the
 220 total MW demand per hour that is committed for the implementation of the Interruptible
 221 Load Program for the next day.”
 222

WESM Manual on Billing and Settlement 12.1

- 223
 224
 225 a) On Sections 9.5 and 9.5.1, Ms. De Guzman informed the RCC about the DOE’s letter to the
 226 PEM Board dated 03 August 2021, which emphasized that the submission and/or confirmation
 227 of BCQ is a critical responsibility of the TP. However, the DOE letter also states that an
 228 exemption may be allowed on a case-to-case basis, particularly when the failure to do so is
 229 due to unavailability of the Central Registration and Settlement System (CRSS).
 230

231 Noting the information provided by the Secretariat, Chairperson Morallos inquired if a
 232 generation company can be penalized in cases when the Contestable Customer (CC) or
 233 Directly Connected Customer (DCC) did not de-load after the said generation company made
 234 its re-declaration on their behalf causing the inaccuracy. Ms. Anosan responded that there is
 235 no penalty, but it is the intent of the proposal, for it to allow re-declaration from the generation
 236 companies to consider the available information.
 237

238 Likewise, Ms. Vetus-Magtalas requested a copy of the DOE letter mentioned by the
 239 Secretariat for IEMOP’s reference in re-evaluating the re-declaration of BCQ by the generation
 240 companies. The Secretariat noted such request.
 241

242 To resolve, the RCC adopted the proposed provisions with minor edit revising the word
 243 “NGCP” to “Transmission Network Service Provider”. The complete provision are as follows
 244 which details the conditions on the re-declaration of BCQ by the generation companies:
 245

“9.5 REDECLARATIONS FOR ENERGY TRANSACTIONS

246
 247
 248 9.5.1 Generation Companies may re-declare bilateral contract quantities in
 249 respect to:

- 250
 251 a. Contestable Customers that are registered with the Distribution Utility as
 252 Interruptible Load Program participants;
 253 b. Directly connected customers that are registered with the Transmission Network
 254 Service Provider as Interruptible Load Program participants; and
 255 c. Force majeure events resulting in inability to access the Market Operator’s
 256 electronic submission platform.”
 257
 258 b) On Section 9.5.2, the RCC adopted the revision adding the terms “contestable customers”
 259 and “directly connected customers” to specify the types of ILP participating customers by the
 260 Distribution Utility (DU) and SO, respectively, wherein the latter will provide the list to the MO
 261 every 15th day of the month.
 262
 263 c) On Section 9.5.4, Ms. Vetus-Magtalas relayed that IEMOP defers to the RCC the inputs to be
 264 provided by the DUs on the actual implementation of the ILP. However, she noted that it
 265 should be consistent and harmonized with WESM processes such as supply contract
 266 enrollment, provision of notice, etc.
 267

MEETING MINUTES

Subject/Purpose : 218th RCC (Regular) Meeting No. 2023-11
 Date & Time : 21 July 2023, 9:00 AM to 3:00 PM
 Venue : Online via Microsoft Teams
 Page : 10 of 58

268 Mr. Tetangco raised that for MERALCO, it cannot provide a day after the actual de-loading
 269 time for the customers that participated in the ILP. Sometimes, the meters of CCs cannot be
 270 accessed remotely, thus, the need to be examined on-site. Moving forward, the actual duration
 271 of de-loading of each participating CC is determined within the prescribed timeline for
 272 submission of BCQ re-declaration for ILP.

273
 274 Mr. Orillaza asked the MO on the urgency for the DU to provide a day after the actual de-
 275 loading time for the ILP. Ms. Vetus-Magtalas responded that the purpose is for MO to
 276 accommodate and process the BCQ re-declarations.

277
 278 Mr. Virgilio C. Fortich, Jr. (Distribution) inquired whether it is also necessary to submit to the
 279 MO the demand (MW) that was de-loaded. Ms. Vetus replied that the MO only needs the
 280 actual time and duration of de-loading to anticipate possible re-declaration applications from
 281 the MO. Since BCQ declarations relate to the contract between the participants to which the
 282 MO is not a part of, the MO does not see it relevant to be requested.

283
 284 d) On Sections 9.5.5 to 9.5.7, the RCC adopted IEMOP's proposal wherein each specifies the
 285 timeline for re-declaration under Section 9.5.1 a to c, respectively, i.e., seven (7) business
 286 days from the end of the relevant trading day when the ILP was activated.

287
 288 e) On Section 9.5.8, Ms. Vetus-Magtalas responded to PEMC's clarifications on one of the
 289 proposed requirements for the generation companies to follow the prescribed format and
 290 mode of submissions:

- 291
 292 i. On the modes of re-declaration, it could be through electronic mail or CRSS.
 293 ii. If through CRSS, it would require system enhancements to include the trading
 294 intervals, and it is also subject to budget availability.
 295 iii. For the additional cost that will be incurred for the enhancements, it is yet to be
 296 determined. In the meantime, if the proposal will be approved, submission through
 297 electronic mail will be utilized.

298
 299 The RCC adopted IEMOP's proposal reflecting the re-declaration requirements to be followed
 300 by the generation companies in cases stipulated under Section 9.5.1 a to b.

301
 302 f) On Section 9.5.9, the RCC adopted IEMOP's proposal wherein it details the re-declaration
 303 requirements to be followed by the generation companies in cases stipulated under Section
 304 9.5.1 c.

305
 306 g) On Section 9.5.10, Ms. Vetus-Magtalas responded to PEMC's suggestions as follows:

- 307
 308 i. With regards to publishing in the Market Information Website the requests for re-
 309 declaration, the MO is not amenable since it includes BCQ which is classified as
 310 confidential based on the WESM Information Disclosure and Confidentiality Manual.
 311 ii. For the provision to PEM Board of a monthly summary of re-declaration requests, it
 312 should only be limited to the request excluding the metered quantity (MQ) and BCQ.
 313

MEETING MINUTES

Subject/Purpose : 218th RCC (Regular) Meeting No. 2023-11
 Date & Time : 21 July 2023, 9:00 AM to 3:00 PM
 Venue : Online via Microsoft Teams
 Page : 11 of 58

314 On MERALCO's query on the rationale of the proposed timeline for MO processing of re-
 315 declaration requests, Ms. Vetus-Magtalas responded that the MO already deems the timeline
 316 enough for validation purposes. On the other hand, on NGCP's concern on the proposed
 317 timeline for addressing discrepancies, the IEMOP opined that the seven (7)-day timeline given
 318 to the TPs is already sufficient to submit accurate BCQs for re-declaration.
 319

320 To resolve, the RCC adopted revisions providing the timeline for the MO to act on the re-
 321 declaration requests and inform the WESM member regarding its decision within a period of
 322 five (5) working days from its receipt of request. Further, a monthly summary of re-declaration
 323 requests including the reasons thereof, shall be provided by the MO to the PEM Board.
 324

325 h) On Section 9.5.11, the RCC adopted IEMOP's proposal to provide a six (6)-month period for
 326 the WESM member to raise its dispute on the MO's disapproval of a request for re-declaration.
 327

328 i) On Section 9.5.12, Mr. Ryan S. Morales (Distribution) made a clarification about MERALCO's
 329 comment to allow five (5) days from the issuance of final bill the submission of corrections and
 330 reflect the said corrections in the preliminary bill for the immediately succeeding month. Per
 331 Mr. Morales, ILP re-declaration is unique compared to regular DU contracts. The entity that
 332 will be re-declaring to DU is not its Supplier, meaning the transaction with a Generator that
 333 MERALCO does not have a contract with is not regular and may be prone to errors. Similarly,
 334 it is not feasible to correct outside WESM settlement since it cannot be documented before
 335 the ERC (i.e., not based on an ERC-approved power supply agreement).
 336

337 Ms. Vetus-Magtalas responded to Mr. Morales' predicament that MO wants to avoid
 338 disruptions in WESM settlement statements. As a rebut, Mr. Morales said that ILP is an effort
 339 by the DUs to help augment supply deficiency to which the DUs do not want to be penalized.
 340 He added that although the term used is "re-declaration", it is the first time for the DU to declare
 341 the BCQ since the initial declaration was made by the Supplier/Generator affected by the ILP
 342 transaction.
 343

344 On the BCQ corrections, Ms. Vetus-Magtalas clarified that it is different from the corrections
 345 of MQ. The MO observes a criterion in the Market Operator Performance Standards (MOPS)
 346 regarding the settlement timelines. If amendments in the Billing and Settlement Manual
 347 regarding BCQ re-declaration will be adopted, then, subsequent amendments to the MOPS
 348 should be made.
 349

350 To settle the issue, Chairperson Morillos suggested for the Secretariat, IEMOP and
 351 MERALCO to conduct discussions on how to solve the issue on re-declaration process.
 352

353 j) On Section 9.5.13, the RCC adopted revision specifying the website of the MO, i.e., Market
 354 Information Website, wherein the advisories of the MO on the mode of submission of
 355 redeclaration shall be published.
 356

Agreements:

357 a) The RCC provisionally approved the proposal subject to the refinements of Clause 9.5.12.
 358

359 b) The Secretariat to:

398

- a) On Clause 6.2.1.2, Mr. Ortiz raised NGCP's comment to use "grid security-related intervention" instead of "transmission-related intervention" since the former is more precise (than the latter). The same idea was seconded by Mr. Claudio.

MEETING MINUTES

Subject/Purpose : 218th RCC (Regular) Meeting No. 2023-11
Date & Time : 21 July 2023, 9:00 AM to 3:00 PM
Venue : Online via Microsoft Teams
Page : 13 of 58

399 Mr. Yap informed the RCC that the MSC is amenable on retaining both terms in the entire
400 proposal, however, Mr. Ortiz and Mr. Claudio disagreed since it would be redundant if
401 “transmission-related intervention” will be retained.

402
403 The RCC adopted using “grid security-related intervention” to pertain to the type of intervention
404 that can be declared by the SO.

405
406 b) On Clause 6.2.1.3, Mr. Ortiz opined an instance wherein the market operation software still
407 works but its output is not implementable. Mr. Yap responded that in those instances, based
408 on the Dispatch Protocol Manual Section 16.13, it should be the SO to declare the MI.
409 However, Mr. Ortiz raised that the MO is capable of evaluating and determining that the output
410 is not implementable, hence, the MI can already be declared by the MO.

411
412 Ms. Anosan provided insights that even with the presence of “force majeure events”, which
413 already provide a catch-all statement for other instances, in both description of MI categories,
414 the division of responsibility is still vague in some occurrences. Thus, specifying events on
415 when the MO and SO can individually declare MI may limit their respective authority. Ms.
416 Anosan’s idea was also concurred by Chairperson Morillos.

417
418 On the inquiry on whether the simulation of the business continuity plan and disaster recovery
419 procedures of the MO be conducted without MI, Mr. Yap requested Mr. John Paul S. Grayda
420 (Market Operator) to share on the matter to which Mr. Grayda assured to verify on the
421 upcoming conduct of business continuity activity in August 2023. Mr. Ortiz also proposed to
422 check the previous business continuity activities to validate the relevance of including such
423 criteria in MI declaration. Relatedly, Mr. Claudio confirmed that the inclusion of such provision
424 emanated from instances that happened in the past.

425
426 Meanwhile, with MSC’s proposal to include “an event of force majeure” for the MO to warrant
427 the market system-related events, the definition of MI in the glossary was likewise revised to
428 include the same phrase.

429
430 c) On Clauses 6.3.1.7 and 6.3.5.1 the RCC adopted the revision for the SO to notify, among
431 others, during emergency condition the MSC through the PEM Board, instead of separately
432 notifying both entities.

433
434 d) On Clause 6.6.1.2, the RCC adopted to retain the original wording which requires the SO
435 provision of the system security and reliability guidelines to DOE, among others, even if the
436 DOE is the promulgating entity of such document.

437
438 e) On Clause 6.6.2.2, Mr. Ermelindo R. Bugaoisan, Jr. (NGCP) contested the inclusion of “impact
439 and actual cost incurred by the WESM Members as a consequence of the event” as among
440 the details to be indicated in the SO and MO respective MI/MS reports that will then be
441 submitted to the MSC, DOE and ERC. He raised that the SO does not have the methodology

MEETING MINUTES

Subject/Purpose : 218th RCC (Regular) Meeting No. 2023-11
 Date & Time : 21 July 2023, 9:00 AM to 3:00 PM
 Venue : Online via Microsoft Teams
 Page : 14 of 58

442 in computing the impact and actual cost incurred by the WESM Members, thus, MSC's
 443 proposal is hard to implement. The same dilemma was seconded by Mr. Grayda on behalf of
 444 the MO.

445
 446 Since based on the Market Surveillance Manual Sections 5.3.3. and 5.4.1, the
 447 abovementioned requirement is among the details required to be specified in the MI/MS
 448 assessment report by the MSC which will then be provided to the PEM Board, MO, ERC, DOE,
 449 WESM Participants and interested persons, Mr. Yap shared that the MSC is currently
 450 comparing the Administered Prices of the affected intervals during MI from the normal prices
 451 prior and after the affected intervals.

452
 453 Subject to resolution on the abovementioned issues, the RCC decided to defer the
 454 deliberations of the proposal to the next RCC meeting.

455
 456 f) Clerical revisions and minor enhancements on other Clauses were adopted by the RCC for
 457 clarity.

458

459 Agreements:

460

461 a) The proponent to provide updates/recommendations on the following items:

462

- 463 i. Clear division of responsibility for MO and SO in warranting MI;
 464 ii. Feasibility on requiring the “impact and actual cost incurred by the WESM Members
 465 as a consequence of the event” from the MO/SO in their respective MI/MS reports.

466

467 b) The RCC to continue the deliberation of the proposal in the next RCC Meeting.

Philippine Electricity
Market Corporation

Annex D – Updates on other Proposed Amendments

Summary of Proposed Changes to the RCC Internal Rules

 Philippine Electricity
Market Corporation

SUMMARY OF PROPOSED CHANGES

- Updated criteria for independence per WGC manual
- Inserted hold-over provision based on WGC manual
- Reflect actual procedures - rescheduling of meeting, approval of resolutions and voting online, submission of sector rep certification, and affixing of signatures electronically by RCC (not anymore by the Secretariat)
- Delete provision that alternates may vote for the principal member per WGC manual (no proxy voting)
- Added in proposal template the inclusion of data and/or simulation results
